INTERNSHIP

WEB DEVELOPMENT Intern – Techno Hacks – Online

Collaborated in designing and deploying responsive web pages (Login page, Stop watch, Currency converter) using Html, css, js.

PROJECTS

• PORTFOLIO Website- HTML,CSS,JS

Built a responsive portfolio using HTML, CSS, and JavaScript to showcase my skills and projects. It features interactive sections like About, Projects, and Contact, with smooth transitions and optimized performance.

• Note Taking Application- HTML,CSS,JS, Nodejs, Mongo DB

A Note-Taking Application can be built using HTML, CSS, and JavaScript for the frontend, where users can create, edit, and delete notes. The Node.js backend handles requests, while MongoDB stores notes and user data for persistence.

• WhatsApp Clone (UI)-REACT JS

Developed a WhatsApp Clone UI using React.js, focusing on the chat interface, sidebar, and responsive design for an engaging and modern user experience

• Voice Assistant - Python

This Voice Assistant uses AI-based speech recognition and text-to-speech to execute commands like opening websites, searching Google, and managing windows. Built with Python, it integrates speech_recognition, pyttsx3, and webbrowser for seamless interaction.
